FERCHAU Spain

Engineering, Careers, International:

Welcome to **FERCHAU Spain**

With the best engineers and IT experts, FERCHAU Spain solves technical challenges for international customers. As the Spanish subsidiary of FERCHAU, Germany's No. 1 in engineering and IT, we deliver tailor-made services to our customers from innovation-driven industries – with Spanish contacts, specialists and state-of-the-art technology. This provides excellent career opportunities for talented engineers and IT experts.

Quality is our driving force

As a service provider to our customers, we strive to achieve the highest engineering quality to meet the requirements of international companies. Madrid, Barcelona, Bilbao and Seville represent four sites in economically strong regions where our engineers and IT experts respond individually to the technical and contractual requirements of our customers.

FERCHAU Spain is the ideal development partner for technical solutions. Our services range from peak load support to complete work packages. We support customers with an interdisciplinary team of over 300 employees – from designers to system engineers and cyber security experts. Our specialists bring experience, problem-solving skills and the right tools to the table to help your project reach a successful conclusion.

Applicant benefits:

- Strong company background
- Family business managed by its founders
- »Made in Spain« Engineering and IT solutions
- Based in economically strong regions
- Well-known international customers

The best opportunities for problem solvers

If you are fascinated by technical challenges and are passionate about IT or engineering, FERCHAU Spain is the right employer for you! Whether you are a young professional or an experienced expert - we offer the ideal entry into our motivated teams for all levels of professional experience.

Your work at FERCHAU will open up new and exciting prospects in numerous areas of expertise and industries - you will also have the opportunity to quickly assume responsibility and grow personally and professionally. Challenging and varied projects in an international environment with well-known customers await you and offer the very best chances for your personal development.

As part of a successful family business, FERCHAU Spain guarantees security and stability for your future career. We also combine the human side of teamwork with the experience and diversity of an international corporation. With many years of experience, we can ideally support you in achieving your personal and professional goals.

What we are looking for

Do you have an appropriate university degree? Are you passionate about technology? Do you have experience in the aeronautics, automotive, rail, industrial or IT sector, all combined with strong interpersonal skills? Or do you independently acquire and support customers in sales, successfully recruit new employees or further develop business? FERCHAU Spain offers a wide range of job opportunities for ambitious graduates and professionals.

Here are some examples of positions in which our experts work.

Designer

Have you already worked as a designer in aviation and aerospace, industry, the rail sector and general design with tools including Solid Edge, SolidWorks, NX and AutoCAD? Then send us your CV and become part of our successful team!

Software developer

FERCHAU offers software developers great opportunities if they are interested in new professional challenges and in the most advanced technologies (JAVA, .NET, Angular, Javascript, Cybersecurity, DevOps, Microservices etc.)!

Process/Quality engineer

Our process and quality engineers at FERCHAU Spain work on solution planning, performance monitoring, quality management, process improvement and the planning and development of new projects. Contact us if you have experience in aviation, automotive, rail and manufacturing!

Attractive jobs with the best prospects

Are you an engineer or an IT expert and would like to work on projects in well-known companies? Challenging and varied tasks in an international environment await you at FERCHAU Spain – with the very best prospects for your personal development. We are the right employer for you if you are fascinated by technical achievements!

Applicant benefits:

- Stable jobs
- Autonomous work ethic
- Motivated and dynamic team
- Real career opportunities
- Opportunity to work abroad

Passion for performance

Whether you are an IT consultant, engineer or technician: we are looking for committed, responsible and motivated career starters and professionals. In addition to professional qualifications, we ask only one thing from you: a passion never to be satisfied with a second-best solution. That is what makes us successful.

Made-to-measure engineering and IT solutions

FERCHAU Spain develops efficient and high-quality engineering and IT solutions. We can be flexible and aim to achieve the very best for our customers when putting our cooperation into practice – always legally sound and within budget. This makes us the ideal development partner for companies who rely on superior quality technical innovations in competition. FERCHAU Spain has the technical experts that companies need to succeed today. Our tailor-made engineering and IT services combine a desire for quality and responsibility with the necessary professional expertise and employee experience. Our primary objective is to meet customers' individual needs for technical solutions.

Our portfolio of services

Developers, designers, hardware and software professionals, as well as project and quality managers, support our customers on site or in our engineering offices as required. We develop smart grids for energy engineering and alternative drives for vehicles. We also support IT projects through solutions in BI & analytics and in IT security. The nucleus of our work in Spain revolves around the complex and challenging aerospace engineering industry – and it is with good reason that we are a preferred supplier to the Airbus Group.

Three core solution areas

- **Engineering Solutions**
- **IT Solutions**
- **Project Solutions**
